IFRS represent a set of internationally

accepted accounting principles used by

companies to prepare financial statements.

The goal with IFRS is to make international

comparisons as easy as possible. More than

100 countries around the world currently

require or permit IFRS reporting.

IFRS on Financial Ratios: Early ...

The other major change IFRS 16 brings is on the income statement rather than the balance sheet. A lessee now has to recognise the depreciation of the right-of-use lease asset as well as interest on the lease liability. This may alter a number of financial ratios and metrics, especially for companies that

Introduction to US GAAP and IFRS . The US GAAP is, basically, a set of accounting rules used for preparing, presenting, and reporting financial statements for wide ranging entities, counting privately-held and publicly-treated companies, governments, and non-profit organizations. This term is by and large confined to US and is thus commonly
