Two distinct models resulted from the redesign of Mazda's front-drive subcompact for 1990: a 2-door hatchback, again called 323; and a longer, more costly 4-door sedan named Protege. Though similar in front-end appearance, the two shared no sheetmetal. An 82-horsepower, 1.6-liter 4-cylinder engine again powered the 323.

Mazda 323 Shock Absorber and Strut Assembly | CarParts.com

Info. For many car parts, such as engines and cylinder heads, it is important that you specify the correct motor code on your request. The engine code is usually stamped somewhere into the engine block. The first 4 or 5 letters / numbers usually provide enough technical information for a car parts supplier to find the right engine related car part for you.
