Williamson's

Macroeconomics uses a thoroughly modern approach by showing students how to build macro economic models from micro economic principles. This approach helps to make the text consistent with the way macroeconomic research is conducted today. The fourth edition weaves the recent events of the

Williamson is incredibly long-winded and repetitive. He has a horrible habit of rephrasing redundant material every other page, greatly inflating the amount of perceived content. This edition is bloated and would benefit greatly from being stripped down.
