has a good experience in implementing various optimization techniques for single and multi-objective optimization tasks in manufacturing. Dr Munish Kumar Gupta, is an assistant professor at Chandigarh University, Gharuan, Punjab-India. He obtained a PhD from National Institute of Technology Hamirpur India in 2018.

optimizations can lead to big savings, proportional to the amount of data, in terms of processing time and cost. There are a whole lot of optimizations that can be applied in the hive. Let us look into the optimization techniques we are going to cover:
Partitioning; Bucketing
