Jewelry - Jewelry - The history of jewelry design: The possibility of tracing jewelry's historic itinerary derives primarily from the custom, beginning with the most remote civilizations, of burying the dead with their richest garments and ornaments. Plastic and pictorial iconography—painting, sculpture, mosaic—also offer abundant testimony to the jewelry worn in various eras.

Jewelry - The history of jewelry design | Britannica

Generative art refers to art that in whole or in part has been created with the use of an autonomous system. An autonomous system in this context is generally one that is non-human and can independently determine features of an artwork that would otherwise require decisions made directly by the artist.

These are Blackamoors—a trope in Italian decorative art especially common in pieces of furniture, but also appearing in paintings, jewelry, and textiles. The motif emerged as an artistic response to the European encounter with the Moors—dark-skinned Muslims from North Africa and the Middle East who came to occupy various parts of Europe ...
