### The Ecological Hoofprint The Global

The Ecological Hoofprint: The Global Burden of Industrial Livestock. By Tony Weis. The Ecological Hoofprint examines the industrialization of livestock production on a world scale, which is the driving force behind the phenomenal and uneven increase in global meat consumption, and the momentous but greatly underappreciated implications of this trajectory.

### The Ecological Hoofprint - The Global Burden of Industrial ...

'With the metaphor of the ecological hoofprint Tony Weis sounds a clear warning about the perils of the rising global consumption of meat. The powerful message of this book is that ascending the animal protein ladder is a formula for deepening social inequalities and compounding ecological risk.

### The Ecological Hoofprint: The Global Burden of Industrial ...

The exploding global consumption of meat is implicated in momentous but greatly underappreciated problems, and industrial livestock production is the driving force behind soaring demand. Following his previous ground-breaking book The Global Food Economy, Tony Weis explains clearly why the growth and industrialization of livestock production is a central part of the accelerating biophysical ...
