The economics of exchange rates | Tim Worstall

The exchange rate is the rate at which

Get Free The Economics Of Exchange Rates Sarno Taylor

one currency trades against another on the foreign exchange market. If the present exchange rate is $\text{£}1 = \$1.42$, this means that to go to America you would get \$142 for $\text{£}100$. Similarly, if an American came to the UK, he would have to pay \$142 to get $\text{£}100$. Although in real life, the dealer would make a profit.
