The machine plunges the cup which forces urine to the test strips, the machine then reads the lines on these strips and reports the results. If it is negative the test is destroyed on site and results automatically reported to the employer. Positive results have to be sent to the lab for GC/MS confirmation testing.

Which cup will keep water cold the longest? We had received some Tervis tumblers as previous Christmas presents and this year, we received two YETI cups. It seemed like they kept ice water in them longer than any cup we had used. She noticed that they were keeping ice overnight, so we started talking

13 reviews of LabCorp "I had so much anxiety about giving 6 viles of blood that I literally walked out and started crying outside. Arlene brought me in a special room where I could lay down and she must have used a small needle because I didn't even feel it. She talked to me and had me doing breathing exercises and before I knew it, it was over.
