If the blocks are the same (4EFE 4EFTE) wouldn't it make sense to swap all the HD rotating internals, sump, clutch and g/box from the 4EFTE into the 4EFE? I'm wondering if this might be an idea to keep the original look and engine number to avoid rego hassles.. If the NA head and manifold were up to it the original look would be retained too..

works with this engine.

about map sensor!!!! - Technical - AU Starlet Club

The map sensor detects the vacuum pressure created inside the intake manifold of the vehicle and sends the engine load information to the ECM. The ECM will adjust the fuel injectors pulse width accordingly.

Note: Baro and MAP

Knock sensor is for your timing mate it basically lets the engine run with as advanced timing as possible without the engine pinking.

Without it you will as socks say get an EML you also risk it misfueling and lacking power. Which obviously can lead to burning pistons n snapping con rods. In worst case scenarios.
